Peel Bloodstock has created this pinhooking syndicate as an investment and a way for more people to be involved in younger stock. The syndicate has taken ownership of seven yearlings chosen by Peel Bloodstock and are based at Peel Hall. The yearlings have either been bred by Peel Hall stud or purchased as a foal. The aim is to sell them in the summer of 2023 as store horses.

At Peel Bloodstock we are equipped and specialised to condition the horses to prepare them for the sale and their racing career after. Each share is £2,000 +VAT (100 shares available). This investment will be a one-off payment; it includes cost of the foals, livery, transport, vets, sales entries etc. Peel Bloodstock will waive the usual 5% consignment fee if the investment does not make £200,000 or more. If the syndicate makes £201,000 to £250,00 the 5% will be established. If the investment makes £251,000 to £300,000 the rate will increase to 7.5% and if the returns are greater than £300,000 then a 10% rate will be implemented.

Being based in the UK and strong supporters of British breeding, Peel Bloodstock register all our fillies who qualify for the GBB scheme.

**The GBB scheme encourages British based mares to go to British based stallions. Once the fillies begin to race and hopefully win, the prize money increase by up to £20,000.*
